

NCMN Company Membership Program

RECOGNIZE YOUR EMPLOYEES AND LOWER YOUR EMPLOYEE TURNOVER RATE WITH A COMPANY MEMBERSHIP

NCMN's Company Program is available to employers only and offers a unique way to receive maximum value for an investment in your Case Management employees. Through this membership, you can increase employee skill sets and sharpen expertise, improving employee value and saving the cost of time-consuming research through access to the latest educational resources, industry trends, pressing Case Management issues, and up-to-date resources in a variety of practice settings.

Employers report that attracting and retaining qualified Case Managers is one of their most pressing concerns. In the volatile health care industry, trained employees are invaluable assets. You can inspire employee goodwill and cultivate loyalty by investing in the professional development of your Case Managers. Providing the benefits, tools and resources available through NCMN also builds loyalty and encourages professional excellence.

You can support your employee's career development by providing the unique opportunity to learn more about the Case Management industry through multiple educational resources and networking opportunities.

NCMN's Company Program allows your company to manage your group information, review employee listings, and add, delete, transfer, or open slots, and most importantly, you as the employer retain ownership of the individual accounts. Because access to resources is transferable, you never need worry about losing your investment when an employee leaves your company. As the employer, you assign access to the designated employees.

NCMN's publications are essential resources for the latest information on Case Management, and are included FREE with Company Program membership. Employees receive FREE free hard copies

- ✓ Canadian Standards of Practice for Case Management, mailed & online
- ✓ Case Management Connection NCMN's quarterly newsletter
- ✓ Professional Case Management NCMN's official journal
